---

Gary – I imagine we can send it to Earl after its finalized, but I'll need to ask IP and MIMC to make sure.

Thanks,  
David

David,

I've asked Earl Hayter to participate in this, but he has another commitment (another AnchorQEA modeling site), so, would it be possible to send him your presentation?

Thanks,

Gary Miller

**Subject:** San Jacinto Feasibility Study

Gary – To confirm our phone discussion this morning, I will send a meeting request for next Thursday, June 20<sup>th</sup>, for us to present the results of modeling that will show expected shear stresses over different portions the northern impoundment at San Jacinto under a variety of storm conditions/flow regimes. We can also discuss the final set of remedial alternatives to be presented in the Feasibility Study (FS) during the call. Following the call, you and I will plan to get together to discuss a revised schedule for the FS that allows its completion with due consideration of the matters we have discussed over the last few weeks pertaining to the development of remedial alternatives.

Please let me know if you have any concerns.

Thank you,  
David
